

BLUE CHIP - BUSINESS SOLUTIONS

More than a quarter of a million companies around the world rely on Microsoft Dynamics solutions and services to manage processes and functions critical to their success. Dynamics can help your people be more productive and your business more efficient and profitable.

"The cost benefits of switching to Microsoft Dynamics NAV were a huge attraction right from the outset."

Charlie Allen : Shiner Ltd

Microsoft Dynamics automates and streamlines financial, customer relationship and supply chain processes and seamlessly integrates with your other Microsoft applications, such as SharePoint, Exchange and SQL Server.

Blue Chip's Microsoft Dynamics team can provide you with the expertise, industry knowledge and development capabilities to help your business deliver solutions for:

- **Financial management**
- **Fixed Assets**
- **Manufacturing**
- **Business intelligence**
- **Sales and marketing/CRM**
- **Purchase and Payables**
- **Distribution**
- **Stock and Inventory**
- **Warehouse**
- **Project & Job Management**

At Blue Chip we utilise a combination of Microsoft applications to deliver an integrated enterprise management solution.

- **Microsoft Dynamics NAV**
- **Microsoft SQL Server**
- **SQL Reporting Services**
- **Business Intelligence**
- **Windows SharePoint Services**
- **Microsoft Office SharePoint Server**

Why use Blue Chip's Microsoft Dynamics team as your Microsoft Dynamics Partner?
